# About

AUTHOR  
Chelsea Jones, MBA

PUBLISHED  
October 2023

The “2023 Ophthalmic Laser Market Report” provides new insights into total global laser treatments—including treatments for glaucoma (SLT, iridotomy, ECP), retinal disease (medical and surgical treatments), and secondary cataract. The report includes sections that examine country-level procedure estimates and the top markets for replacement sales versus new installs. It also has refreshed surgeon poll data on adoption plans for retinal rejuvenation therapy, trends in floater treatment, and opinions on emerging glaucoma laser technologies.

## Market Scope

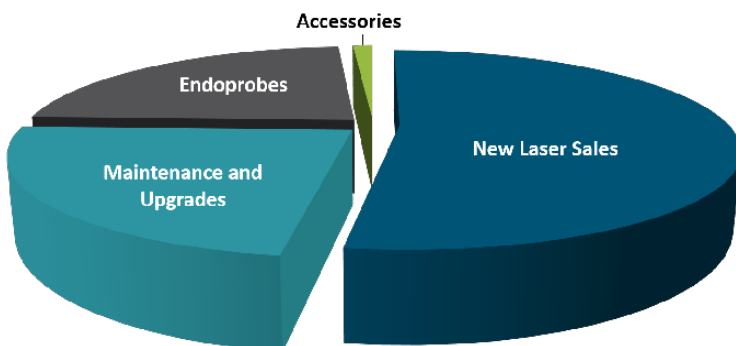

# 2023 Ophthalmic Laser Market Report

The “2023 Ophthalmic Laser Market Report” offers a comprehensive analysis of the global market for ophthalmic lasers, as well as a discussion of important trends and key factors shaping future success. The report covers photocoagulation, photodisruption, and SLT lasers with market data for 2022 and forecasts through 2028. Product demand is forecast in units and dollars, and market share is analyzed by product category. Eighteen market competitors are profiled, with discussion of their products, strategic market position, background, and outlook.

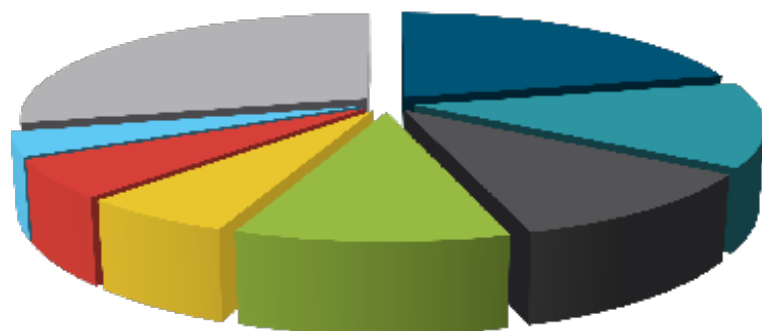

The following information is also included:

- Review of global retinal diseases and treatment methods.
- Review of global glaucoma and treatment methods.
- Review of global cataracts and treatment methods.
- Global overview of ophthalmologists.
- Forecast of photocoagulation lasers by region.
- Forecast of photodisruption lasers by region.
- Forecast of SLT lasers by region.
- Forecast of laser treatments by category and region.
- 18 company profiles.

**Ophthalmic Laser Revenue by Source**

**Global Revenue Share by Competitor**

This report is designed for ophthalmic industry manufacturers, market analysts, providers, and investors who are interested in the ophthalmic lasers business and related products. In-depth topics include laser treatment estimates, ophthalmic surgeons using lasers, and manufacturers of ophthalmic lasers (excluding femtosecond and excimer).
